

Online Registration

Link to online registration:

<https://ops1.operations.daxko.com/Online/2150/Programs/Search.mvc>

Once there, you can either browse the programs or search for programs via keyword.

After you select the program you want, you will click the small rectangular box and then hit register.

To register, you will have to set up an online account. If you already have a user name and password, you may enter it into the box.

If you are an existing member, you can search our current system to see if you and your family are active. If so, follow the user prompts to set up your online account.

Finally, if you are either a new program participant or aren't sure if you are in our system, simply create an account.

Once you are registered, simply follow the online prompts to complete your program registration.

You may register for multiple programs. Please keep in mind that programs are "age sensitive" meaning that you cannot register for a program unless the user meets the age requirements. For instance, if your child is 7 years old and wants to sign up for a program that is for 6 year olds, the system will not allow it. Also, you will be required to sign up the actual child and not the adult. The system is set up so that each membership unit will display all family members on your membership. From there, you will need to select the actual person who will be using the program.

Payment for programs will need to be made at the point of checkout or you or your child will not be registered for the program. Credit cards accepted are MasterCard, Visa, and Discover.

For further details, please call us at 672-2148 if you need help. In house registration is also available at any time.
